## U.S. DRY PEA EXPORTS AT RECORD LEVEL

IN 1968-69; LENTILS DOWN 13 PERCENT

Exports of U.S. dry edible peas, including seed, totaled 2,596,911 cwt. in the crop year ending August 1968. This record total, valued at \$16.7 million, was 23 percent greater than the previous year's shipments of 2,114,359 cwt., valued at \$13.5 million.

Alaska pea exports of 1,313,518 cwt., valued at \$8.2 million, accounted for most the increase in total shipments. The United Kingdom, largest importer of these peas, received 706,259 cwt., which was 54 percent of total Alaska pea exports. The EC imported 142,153 cwt. nearly 4 times the amount taken in 1967-68.

Yellow pea exports of 369,466 cwt., valued at \$2.3 million, increased slightly over the previous year, with Venezuela continuing as the principal market. The EC imported 93,219 cwt., compared with 21,707 cwt. in 1967-68.

Other dry pea shipments increased 35 percent, from 442,500 cwt. in 1967-68 to 598,134 cwt. in 1968-69. Japan received 43 percent of these peas, probably Austrian winters. The value of "other" pea exports was \$3.4 million.

Seed pea exports amounted to 315,793 cwt., valued at \$2.8 million, compared with 252,915 in 1967-68. The EC, together with the United Kingdom and Canada, imported 85 percent of the seed.

Lentil exports declined for the second straight year, amounting to 470,659 cwt. compared with 538,696 cwt. the previous year and down 23 percent from 1966-67. Decreased shipment to the EC, mostly West Germany, accounted for the decrease. Value of lentil exports was \$4.4 million.
